Experience

Blueprint— *Product Manager*   Ottawa, ON

May 2020 – Present

- Led a team of 10 to build a CRM platform to improve client and application tracking for an NPO that provides interest-free loans; leverages React, Flask, & PostgreSQL
- Conducted user interviews to formulate scope for MVP; validated user flows and acceptance criteria to produce detailed 'Gherkin' user stories
- Coordinated developer and design team using Agile principles while acting as the main point of contact for the NPO

BlackBerry QNX— *Technical Project Manager Intern*   Ottawa, ON

May 2020 – December 2020

- Collaborated with engineers and testers to develop patches for clients facing critical software bugs
- Automated the internal project management tool using Selenium and JS, for a time saving of 35%
- Led the effort to train 15+ senior PMs on open-source licenses; optimized the compliance process using Python scripts, reducing effort by 73%
- Implemented an optimized algorithm using hash tables to isolate time sheet errors using Pandas; hosted as a web app using React, Flask and Docker

BlackBerry— *Business Analyst Intern (IoT)*   Waterloo, ON

January 2019 - August 2019

- Leveraged existing product portfolio to deliver 2 voice-enabled POCs for IoT innovation funnel; featured on BlackBerry Developer Blog
- Identified emerging trends to provide management with recommendations for IoT partnerships, directly influencing product strategy

Secusmart— *Product Manager Intern*   Waterloo, ON

September 2017 – December 2018

- Coordinated the launch of the SecuSUITE app on iOS and Android platforms
- Conducted A/B tests within the beta community to test the effectiveness of newly proposed features
- Coordinated with customers, sales and other product teams to gather new feature requests and develop roadmap alongside senior PM
- Collaborated with UX designers to perform a heuristic evaluation for SecuSUITE app refresh; built and implemented over 15 screens
